Background

Puntland Minority Women Development Organization (PMWDO), in partnership with Save the Children and with support from the Government of Norway (NORAD), is implementing the project "SOM – Towards the Elimination of Child, Early and Forced Marriage (CEFM) and All Forms of Female Genital Mutilation/Cutting (FGM/C) in Targeted Communities." Under Outcome 1: Women, girls and boys are empowered to promote gender equality towards zero tolerance to FGM/C and CEFM, PMWDO will establish 22 community-based CHOICES Clubs in 19 target locations reaching 500 adolescents (10–17 years), with priority given to out-of-school children, minority and marginalized groups, and children with disabilities.

To ensure quality and standardized delivery of the CHOICES curriculum, PMWDO with the support of SCI developed materials will develop print, and distribute training materials that are child-friendly, culturally appropriate, gender-responsive and disability-inclusive and aligned with the project's objectives.

Purpose

To develop, produce and print high-quality CHOICES training and learning materials that will support facilitators and adolescent participants during the implementation of the 10-week community-based CHOICES programme.

Objectives

The specific objectives are to:

- Develop standardized CHOICES training materials aligned with the curriculum.
- Contextualize the content to the Somali and Puntland context.

- Ensure materials are gender-sensitive, culturally appropriate and age-appropriate.
- Incorporate messages promoting gender equality, child rights, inclusion and prevention of FGM/C and CEFM.
- Produce facilitator guides and participant learning materials.
- Translate materials into Somali where necessary.
- Print sufficient quantities of the approved materials for project implementation.
- Design attractive and easy-to-understand banners based on the CHOICES curriculum.
- Ensure the banners are culturally appropriate and suitable for community learning.
- Produce durable banners that can be reused throughout multiple programme cycles.
